who is the boss of the firm Council Worldwide Capital Lending Group. The authorities accused those institutions like the companies that have financed the assassination of the president whose mandate was over since February 7th 2021. There is a wanted notice against the former senator John Joël Joseph, according to the Director General a.i of the PNH who participated in that meeting. Furthermore the temporary agents Marky Kessa and James Solages that were already arrested by the police, like suspect were used as intermediary between the Colombian mercenaries and CTU. The police arrested approximately 23 persons among them 18 Colombian mercenaries and 5 Haitians that have the American citizenship.

A week after the assassination of the president, the police investigation continue. While there are many confusions by the way the general director of the, Léon Charles is leading the case. The director of the police the DCPJ (Central Direction of the National Police) which is the technical body that is responsible of the police investigations. Through several Press

conferences that Léon Charles gave he affirmed that the de facto president Jovenel Moise will find justice but according to many observations about the way the authorities are manipulated some important facts that could establish the truth on the real persons that are behind the assassination of the president, it is clear there is not a serious investigation that is really being carried out. While some people in the population do not stop asking questions about the de facto president Jovenel Moise death, the authorities create a lot of confusion. The population keeps asking itself : How can it be possible that some individuals get in a president's residence with so many ease and assassinate him? Perhaps there was some police agents that were providing security to the de facto president Jovenel Moise residence but anything was done to prevent that, there wasn't even a little resistance. What is the truth around the story of that crime?

2.- DIMITRI HÉRARD AND JEAN LAGUEL CIVIL DID NOT ANSWER THE INVITATION OF THE GOVERNMENT COMMISSIONNER OF PORT-AU-PRINCE, BED-FORD CLAUDE, ABOUT THE ASSASSINATION CASE OF THE DE FACTO PRESIDENT JOVENEL MOISE, ON WEDNESDAY JULY 14TH 2021, AS THE MAIN RESPONSIBLE OF THE PRESIDENT SECURITY.

Dimitri Hérard and Jean Laguel Civil do not answer the summons of the government commissioner of Port-au-prince Bed-ford Claude, on Wednesday July 14th 2021. Those men received a summon to be questioned in front of the Public ministry about the assassination of the de facto president Jovenel Moise. The government commissioner Bed-ford Claude invited the chief of the Unity of General Security of National Palace, Dimitri Hérard and the police assistant manager, Jean Laguel

Civil that are responsible of the president security, were invited to give information about the de facto president Jovenel Moise death, but they did not present, and they justified themselves telling that they have already been under conservatory measures of the General Inspection of the National Police. Let's note that, one week after the assassination of the de facto president Jovenel Moise, nothing is clear. You have the impression that there is a will power to create confusion in the population. The way that the police authorities and the government commissioner, Bed-ford Claude manage the matter, it's confusing. Furthermore, many people that follow the progress of the Port-au-prince government commissioner's investigation they do not understand anything, according to what criteria he chooses to invite those persons first? According to several personalities, the authorities are covering the investigation's track about the president's assassination. A week later, the government commissioner Bed-ford Claude has

questioned 3 persons who are Youri Latortue, Jerry Tardieu and Steven Benoit, 3 people that are part of the political opposition. What lead many specialists in criminal investigation matter, question Bed-ford Claude it's that according to them, he is availing himself of the de facto president Jovenel Moise assassination to persecute the opposition.

Once again in this case, Mister Bed-ford Claude ask the General Inspection of the police to make Paul Eddy Amazan, the responsible of cat Team, and the commissioner Léandre Pierre Osman, the responsible of the Unity of Presidential Security available for the Public ministry.

Let us underline that criminals assassinated the de facto president Jovenel Moise inside of his house on the night of July 6th to 7th 2021, his wife Martine were injured, she received 3 bullets, she is receiving medical care in an hospital in United States, till now there is no authentic information about the assassination. The question we are asking ourselves about the way the government commissioner is carrying out the investigation: Shouldn't he use the statements of the direct responsible to lead him to the presumed intellectual authors of that big crime? If so, why does he start by the presumed intellectual authors ?

That bus came from Saint-Louis du Nord to go to Port-au-prince. It carried 40 passengers. According to the explanation of the company's manager, Jeanty Tecieux, he affirmed that it was the driver who informed the company about the attack. The driver called the company on phone to inform that bandits shot on the bus, they kidnapped 10 passengers that were in the bus but no one was reached by bullets.

4.- A MONTH LATER, IT IS STILL BY STRUGGLING PEOPLE CAN FIND SOME GAS IN THE GAS STATION. STILL BY FIGHTING DRIVERS TAP-TAP, MOTORCYCLES AND PRIVATE CAR DRIVERS, ACCHIEVE TO GET A GALLON OF GASOLINE IN THE GAS STATION , AFTER MORE THAN A MONTH SINCE THE LACK OF GASOLINE PROBLEM POSED, IN THE WHOLE COUNTRY. WETHER THE COMPANY THAT SHARE OUT THE GAS, NOR THE GOVERNMENT SAY A WORD.

It has been several weeks ago, Haiti faces a problem of gasoline. The authorities affirmed that there was gas in the tanks, but they could not share it out because of the paramilitaries operations in several determinant strategic places for the distribution. It's been more than a month that they pose the problem like this, but since then they stay mute. After a visit that radio Resistance paid to some gas stations in the Metropolitan area, we realize it is the same scenes.

Many vehicles remain staked in front of the gas stations to buy gas, but one must struggle to buy a gallon of gasoline. Those drivers affirmed that the problem of gasoline remains the same, nothing change. While there is no gasoline in the gas stations, in all corners of the streets at Port-au-prince they sell the gasoline per gallon. Precisely in front of the gas stations, one buy the gallon of gasoline very expensive. That means the gas stations owners choose to sell to people, then by selling per gallon, they create a black market. According to some distributors that we interviewed, they express the fact that there is no gasoline in the centers. There isn't either in Varreux, in the district of Cité Soleil or in Thor, in the district of Carrefour. Furthermore the insecurity problem that the authorities of the Office of Monetization and the Program of Help for Development (BMPAD) which is responsible to manage the problem that posed the gasoline issue, that situation create a great struggle between the drivers to be able to buy some gasoline in order to realize their activities. Where does the population find those kind of authorities? Perhaps may a country continue to be leading like this? When does the population will understand that building a country cannot be the works of mediocre ?

5.- SEVERAL ORGANIZATIONS OF THE CIVIL SOCIETY AND THE POLITICAL PARTIES HAVE MADE THEIR PROPOSITIONS TO FILL THE CONSTITUTIONAL GAP THE COUNTRY IS GOING THROUGH AFTER THE ASSASSINATION OF THE DE FACTO PRESIDENT JOVENEL MOISE.

Several organizations in the civil society and the political parties have made their propositions to solve the crisis. After the assassination of the de facto president Jovenel Moise, there is an unequaled constitutional gap in the country. There isn't any legal provision to replace the de facto president Jovenel Moise. The truth is that, the constitution has not provided

such a case would occur. It is true the article 149 of the constitution of March 29th 1987 says something in case of gap, but, it does not say anything about the actual situation. The actual situation , is exceptional. Jovenel Moise destroyed all the institutions of the country, to lead it alone with the clan of PHTK. That means, the possibility to count on some institutions, does not hold. In this way, way the organizations of the civil society and the political parties start to present their propositions. They are searching the possibility to find a consensus quite wide between the forces of the country, for a transition that put the society to work in a very different way. The Commission to find out a solution to the crisis (CRSC) that is composed of several organizations of the civil society and the diaspora, and the political parties have called all the sectors that are struggling, to get together to find an Haitian solution to the crisis. They want to avoid that the country fall in a critical situation more deeper , and avoid that the international community that participated in leading the country in the disaster in which it is, impose once again their dictations to the country. In this way they make sure they are ready to participate in a great association that has like main purpose to work in order to redirect the country. While, the ask the international community, to stop imposing the Haitian people measures that bring more crisis to the country.

The Democratic Sector from its side asks to all the actors to forget about their personal concerns and put themselves together to propose an alternative to the nation. It stands up for an Independent Council of Moral Authority (AMI) that is going to analyze the different propositions made on the crisis of the country, so that we find a solution with the participation of all the sectors without exception. In case the political and intellectual sector are kept out and lose the opportunity to give once again to the country the direction that will bring well-being

for everybody? What is the possibility for the country to take back its sovereignty? Anyway, may the population be attentive so that they respect its demands.
